CREATOR LAB · AI VIDEO MASTERCLASSES

● LIVE ONLINE MASTERCLASS

AI Talking Objects **Masterclass**

Make viral videos where a coffee cup, a potato, a bottle — even a rock — talks, emotes, and tells a story. Built entirely with ChatGPT & modern AI tools.

Beginner Friendly

ChatGPT

Grok

Labs.google

Hindi · Punjabi · English

Turn simple ideas into professional AI videos.

Want to create videos where everyday objects — a coffee cup, a potato, a bottle, a toy, or even a rock — can **talk, express emotions, and tell amazing stories?**

In this live online masterclass you'll learn the complete workflow used by AI content creators to produce engaging social-media videos using **ChatGPT** and modern AI video-generation tools.

Whether you're a beginner or an experienced creator, this course teaches you how to transform a simple idea into a polished, publish-ready video.

What you'll learn

COURSE OUTCOME

Leave with projects ready to publish.

By the end of this masterclass you'll have the confidence and practical skills to create engaging AI-generated talking-object videos, produce **professional-quality content for social media**, and build a repeatable workflow using ChatGPT and modern AI tools.

Whether your goal is to grow a personal brand, attract clients, or monetize content, you'll walk away with **finished projects** and a strong foundation for creating AI-powered videos independently.

OUTCOME 01

A repeatable workflow

A step-by-step system you can reuse for any object, any language.

OUTCOME 02

Publish-ready videos

Finished talking-object projects ready for Reels, Shorts & TikTok.

OUTCOME 03

Confidence to scale

Foundations to grow a brand, win clients, or monetize content.
